Independent domains, non-product feasibility

Each forward direction errs with probability 1/10.

Domain 1 \ Domain 2	W	AB
W	W / W J = 0 R = 1/3 Feasible	W / AB J = 1/10 R = 13/60 OPTIMAL
AB	AB / W J = 1/10 R = 13/60 OPTIMAL	AB / AB J = 19/100 R = 1/10 EXCLUDED

Product of projections: four cards; actual family: three.
Both one-disclosure cards are optimal.

W withholds; AB ranks Alder above Birch.
Weights 1/2; withholding cost 1/3; joint cap 3/20.
