Protection can leave only silence or no admissible report

Known A = (1, 0), B = (0, 1)

Larger is higher on both criteria.

Objective $w = (1, 0)$
Budgets $q_1 = q_2 = 1/2$

Criterion 2 remains protected.

Report A>B

$N = 1$; $(E_1, E_2) = (0, 1)$

Criterion 1: $0 \le 1/2$ PASS

Criterion 2: $1 > 1/2$ FAIL

Weighted risk = 0

Error fractions: (0, 1)

Report B>A

$N = 1$; $(E_1, E_2) = (1, 0)$

Criterion 1: $1 > 1/2$ FAIL

Criterion 2: $0 \le 1/2$ PASS

Weighted risk = 1

Error fractions: (1, 0)

Hold the pair

$N = 0$; $(E_1, E_2) = (0, 0)$

Criterion 1: $0 \le 0$ PASS

Criterion 2: $0 \le 0$ PASS

Weighted risk = τ

Error fractions: undefined
because $N = 0$

At most 2 grades

Protected family: {hold}

Exactly 2 grades

Empty: no admissible report

Count rows are $E_k \le q_k N$, with $M = 1$.
At $N = 0$, the error fractions are undefined.
Feasibility does not establish fairness
or repeated-sampling error control.
